Executive Summary

- I. Introduction
 - Forest Certification
- II. The Setting
- III. Conservation of Biological Diversity
 - Protected Open Space and Land Conservation
 - Wildlife Resources in the Berkshire Ecoregions
 - Potential Impacts on State-listed Rare Species by Forest Cutting Operations*
 - Fisheries Resources in the Berkshire Ecoregions
 - The DFW Fisheries Conservation and restoration (FCR) Initiative*
 - Working Forestlands
 - A Forest Reserve System for Massachusetts and the Berkshire Ecoregions
 - Landuse Trends and Forest Fragmentation
 - Invasive Plants
 - Special Places and Habitats
 - Natural Communities*
 - Old Growth*
 - Areas of Critical Environmental Concern*
 - Last Great Places*
 - Highland Communities Initiative*
- IV. Forest Conditions, Health, and Productivity
 - Historical Trends in Forest Composition
 - Current Forest Conditions
 - Forest Disturbance Agents
 - Hemlock Wooley Adelgid, Hemlock Looper, and Elongated Hemlock Scale*
 - Beech Bark Disease*
 - Ash Decline*
 - Sugar Maple Decline*
 - Forest Tent Caterpillar*
 - Sudden Oak Death*
 - Emerald Ash Borer and Asian Longhorned Beetle*
 - Hemlock Wooley Adelgid*

Table of Contents - continued

V.	Soil and Water Conservation
VI.	Regional and Global Considerations
VII.	Socio-Economic Factors
	<u>Demographics and Forestland Ownership</u>
	<u>Outdoor Recreation</u>
	<u>Forest-based Industry</u>
	<i>Sawmills</i>
	<i>Timber harvesters</i>
	<i>Private consulting foresters</i>
	<i>Maple sugar producers</i>
	<i>Christmas tree growers</i>
	<u>Spiritual Values</u>
	<u>Cultural Resource Protection</u>
	<i>Prehistoric Overview & Archaeological Resources</i>
	<i>Historic Overview & Archaeological Resources</i>
	<i>Historic Buildings, Structures, and Landscapes</i>
	<i>National Register of Historic Places</i>
	<u><i>National and State Register Resources</i></u>
	<u><i>Historic Landscapes</i></u>
	<u><i>Summary / Conclusion</i></u>
VIII.	Issues, Goals, and Recommendations
	<u>Massachusetts' Land Management Agencies</u>
	<i>Division of State Park and Recreation</i>
	<i>Division of Fisheries and Wildlife</i>
	<i>Division of Water Supply Protection</i>
	<u>Issues, Concerns, and Opportunities / Goals / Recommendations</u>
	<i>Conservation of Biological Diversity</i>
	<i>The Working Forest</i>
	<i>Fragmentation</i>
	<i>Forest Conditions, Health, and Productivity</i>
	<i>Soil and Water Conservation</i>
	<i>Socio-Economic Factors</i>
	<i>State, Regional, and Global Issues</i>
IX.	A Forest Management Framework for Massachusetts
	<u>Regulatory Standards</u>
	<u>Management Planning</u>
	<u>Silvicultural Standards</u>
	<i>Summary: Common components of silviculture across the state...</i>
	<u>Contractual Standards and Cutting Plans</u>
	<u>Timber Harvesting Systems</u>
